O. Peters ges.

Lithdruck v. A. Bruch, Berlin.

The first part of the book is devoted to a general
 introduction to the subject of the history of the
 world. The author discusses the various theories
 of the origin of the world and the different
 views of the nature of the universe. He then
 proceeds to a detailed account of the history of
 the world from the beginning of time to the
 present day. The book is written in a clear and
 concise style and is suitable for students of
 history and general readers alike.
